Our Paths from Humanities to Data Science: Alternative Academic Research Careers

Katie Ireland & Camila Lívio
(UGA Libraries RCDM and DigiLab)

Katie Ireland, Ph.D. in Linguistics. Her research is focused on using digital tools in text analysis, corpus linguistics, and language variation. Katie is responsible for coordinating research and data support for the DigiLab Team, including facilitating workshops and consulting on digital research and tools across the University

Camilia Lívio, Ph.D. Romance Languages. Her research focuses on using digital tools to analyze linguistic patterns. In addition to her work supporting Scholarly Communications, Camila leads collaborations with the R-Ladies group, workshops on computational tools like R, and teaches about digital scholarship.
